

Username & Password Changes

As a result of the growing body of privacy related legislation such as the General Data Protection Regulation (GDPR), the California Consumer Privacy Act (CCPA), and the Data Protection Act (DPA 2018 UK-GDPR), we feel now is the right time to implement enhanced privacy and security measures.

New customer logins, private passwords, and processes that meet these various regulatory requirements will soon replace your login on our website. Beginning today when you login to our website, you will be prompted to create a new username and password for your account. You will have until September 20 to make this change. If you do not update your credentials by September 20, you will be logged out of your account and required to change your credentials on your next login attempt.

The screenshot shows a user account page with a dark blue header and a white registration form. The header includes a welcome message and a security notice. The registration form has fields for First Name, Last Name, and Email Address, along with a 'Register' button and a 'Cancel' button. A countdown timer indicates 12 days remaining for registration.

Welcome (Your Account Name)

We're taking your data security to the next level.

Secure your future **NOW**
